Differential Geometry

DATE	TIME & LOCATION	EVENT
Tuesday (January 31) 2006	4:00 PM in MSTB 254	Guofang Wei (UCSB) will speak on: " On the Stability of Kähler-Einstein Metrics " [Abstract]
Tuesday (February 7) 2006	4:00 PM in MSTB 254	Peter Li (UCI) will speak on: " Weighted Poincaré inequality and structure of complete manifolds " [Abstract]
Tuesday (February 14) 2006	4:00 PM in MSTB 254	Xu Cheng (Universidade Federal Fluminense, Brazil) will speak on: " The structure of stable hypersurfaces with constant mean curvature " [Abstract]
Tuesday (February 21) 2006	4:00 PM in MSTB 254	Yelin Ou (UC Riverside) will speak on: " The geometry of p-harmonic morphisms " [Abstract]
Tuesday (February 28) 2006	3:00 PM in AP&M 6218	Nicola Galofaro (Purdue University) will speak on: " TBA " (Joint UCI/UCSD Seminar at UCSD) [Abstract]
Tuesday (February 28) 2006	4:00 PM in AP&M 6218	Xiaojun Huang (Rutgers University) will speak on: " Isolated Complex Analytic Singularities and CR Geometry " (Joint UCI/UCSD Seminar at UCSD) [Abstract]

Tuesday
(March 7)
2006

4:00 PM in
MSTB 254

Xiaohua Zhu (Peking University and Wisconsin) will speak on: "Relative stability and modified \mathcal{K} -energy on toric manifolds"

[\[Abstract\]](#)

Tuesday
(March 14)
2006

4:00 PM in
MSTB 254

Lei Ni (UCSD) will speak on: "Mean value theorems and local regularity theorem for Ricci flow"
(This is joint Differential Geometry Seminar and Graduate Student Seminar)
