

Contents

About the Author	xii
Letter to the Student.....	xiii
Letter to the Teacher.....	xv
Acknowledgements.....	xvii
How to use the textbook	T1
Course Pacing Guide.....	T7
Standards Guide	T8
Using Math Journals	T20
Lesson 0: Introduction to <i>A Blueprint for the Foundation of Algebra</i>	1

Volume 1: Whole Numbers, Ratios, and Fractions

Chapter 1: Introduction to the Number Line	6
Pacing Guide.....	6A
Universal Access	6B
Common Errors and Misconceptions.....	6D
Lesson 1: Your First Trip to the Number Line.....	7
Lesson 2: Where are the Whole Numbers?	17
Lesson 3: Unknown Locations	26
Lesson 4: What is an Identity?	35
Lesson 5: Multiplication by a Whole Number.....	42
Chapter Summary and Review.....	52
Chapter 2: Describing Situations	54
Pacing Guide.....	54A
Universal Access	54B
Common Errors and Misconceptions.....	54C
Lesson 6: Units	55
Lesson 7: Units of Area	64
Lesson 8: Describing Situations with Expressions and Equations.....	75
Lesson 9: Describing Situations with Identities	87
Chapter Summary and Review.....	97

Chapter 3: Place Value	98
Pacing Guide.....	98A
Universal Access.....	98B
Common Errors and Misconceptions.....	98C
Lesson 10: Expanded Form.....	99
Lesson 11: Naming the Powers of Ten.....	108
Lesson 12: Working Efficiently with Powers of Ten.....	117
Lesson 13: Multiplication Using Place Value, Part 1.....	126
Lesson 14: Estimating with Powers of Ten.....	132
Chapter Summary and Review.....	142
Chapter 4: Rates and Ratios	143
Pacing Guide.....	143A
Universal Access.....	143B
Common Errors and Misconceptions.....	143C
Lesson 15: Converting Units.....	144
Lesson 16: Finding Rates from Situations.....	154
Lesson 17: Generalizing Rates.....	163
Lesson 18: Expanding the Meaning of Multiplication.....	172
Lesson 19: Multiplication with Rates.....	179
Chapter Summary and Review.....	186
Chapter 5: Division	187
Pacing Guide.....	187A
Universal Access.....	187B
Common Errors and Misconceptions.....	187C
Lesson 20: The Inverse of Multiplication.....	188
Lesson 21: Dividing Whole Numbers.....	197
Lesson 22: Remainders.....	206
Lesson 23: Finding the Difference.....	215
Lesson 24: Long Division.....	225
Lesson 25: Solving Problems with Division.....	235
Chapter Summary and Review.....	245
Chapter 6: Fractions	247
Pacing Guide.....	247A
Universal Access.....	247B
Common Errors and Misconceptions.....	247C

Lesson 26: Numbers in Between Whole Numbers	248
Lesson 27: Fractions of Units	259
Lesson 28: Commutative Property of Multiplication	272
Lesson 29: Fractions and Area	282
Lesson 30: Equivalent Fractions	293
Lesson 31: Dividing Fractions	303
Lesson 32: Equivalent Rates	310
Chapter Summary and Review	319
Volume Review	320
Solutions to Chapter Review (Concepts and Skills Check)	321
Solutions (Teacher’s Edition)	322.001
Example Solutions to Math Journal Questions	322.070
Glossary	322.079
Index	322.094

Volume 2: Equations with Rational Numbers

Chapter 7: Prime Factorization	323
Pacing Guide	323A
Universal Access	323B
Common Errors and Misconceptions	323C
Lesson 33: Divisibility	324
Lesson 34: Prime Numbers	332
Lesson 35: Testing for Divisibility	340
Lesson 36: Prime Factorization	350
Lesson 37: Factoring Powers of Ten	359
Lesson 38: Repeated Factors	367
Chapter Summary and Review	376
Chapter 8: Fraction Sums and Differences	377
Pacing Guide	377A
Universal Access	377B
Common Errors and Misconceptions	377C
Lesson 39: Simplifying Fractions	378
Lesson 40: Common Denominators	387

Lesson 41: Adding Fractions	396
Lesson 42: Mixed Numbers	405
Lesson 43: Fractional Differences	416
Chapter Summary and Review	426
Chapter 9: Decimals	427
Pacing Guide	427A
Universal Access	427B
Common Errors and Misconceptions	427C
Lesson 44: Denominators of 10	428
Lesson 45: Denominators of 100	438
Lesson 46: Denominators of 1,000	447
Lesson 47: Decimal Fractions	456
Lesson 48: Decimal Notation	465
Lesson 49: Expressing Decimals as Fractions	476
Chapter Summary and Review	485
Chapter 10: Operations with Decimals	486
Pacing Guide	486A
Universal Access	486B
Common Errors and Misconceptions	486C
Lesson 50: Addition with Decimals	487
Lesson 51: Multiplication with Decimals	496
Lesson 52: Multiplication Using Place Value, Part 2	506
Lesson 53: Rates with Decimals	517
Lesson 54: Dividing Decimals	526
Lesson 55: Expressing Fractions as Decimals	537
Chapter Summary and Review	548
Chapter 11: Equivalent Expressions and Equivalent Equations	549
Pacing Guide	549A
Universal Access	549B
Common Errors and Misconceptions	549C
Lesson 56: Dividing Using Equivalent Expressions	550
Lesson 57: Generating Equivalent Expressions	560
Lesson 58: Factors and Terms	573
Lesson 59: Simplifying Expressions	585

Lesson 60: Equivalent Equations	597
Lesson 61: Inverse Property of Multiplication.....	608
Chapter Summary and Review.....	619
Chapter 12: Negative Numbers.....	621
Pacing Guide.....	621A
Universal Access	621B
Common Errors and Misconceptions.....	621C
Lesson 62: Inverse Property of Addition.....	622
Lesson 63: Integers.....	634
Lesson 64: Negative Units.....	645
Lesson 65: Negative Solutions.....	657
Lesson 66: Displacement	668
Lesson 67: Negative Rates	678
Chapter Summary and Review.....	689
Chapter 13: Equations with Rational Numbers.....	690
Pacing Guide.....	690A
Universal Access	690B
Common Errors and Misconceptions.....	690C
Lesson 68: Negative Fractions	691
Lesson 69: Rational Numbers.....	702
Lesson 70: Multiplying by Rational Numbers.....	716
Lesson 71: Building Equations.....	731
Lesson 72: Solving Equations.....	746
Lesson 73: Unit Analysis	758
Chapter Summary and Review.....	770
Volume Review.....	771
Solutions to Chapter Review (Concepts and Skills Check).....	773
Proofs.....	776
Solutions to Chapter Review (Concepts and Skills Check).....	781.001
Example Solutions to Math Journal Questions	781.092
Glossary	781.108
Index.....	781.123

Volume 3: The Coordinate Plane and Advanced Topics

Chapter 14: The Coordinate Plane	782
Pacing Guide	782A
Universal Access	782B
Common Errors and Misconceptions	782C
Lesson 74: Plotting Inputs and Outputs	782
Lesson 75: The Coordinate Plane	796
Lesson 76: Graphing with Rates	809
Lesson 77: Offsetting Rates	821
Lesson 78: The Slope is the Rate	835
Lesson 79: An Equation for a Line	851
Chapter Summary and Review	867
Chapter 15: Geometric Context of Ratios and Proportions	869
Pacing Guide	869A
Universal Access	869B
Common Errors and Misconceptions	869C
Lesson 80: Locations on a Plane	870
Lesson 81: Scaling Shapes	880
Lesson 82: Similar Triangles	896
Lesson 83: Lines from Similar Triangles	907
Lesson 84: Equivalent Equations for a Line	917
Lesson 85: Rates, Ratios, and Similar Triangles	927
Chapter Summary and Review	941
Chapter 16: Exponents and Roots	943
Pacing Guide	943A
Universal Access	943B
Common Errors and Misconceptions	943C
Lesson 86: Pythagorean Theorem	944
Lesson 87: Approximating Square Roots	961
Lesson 88: Integer Exponents	973
Lesson 89: Rules of Exponents	986
Lesson 90: Exponents, Roots, and Inverse Operations	997
Chapter Summary and Review	1007
Chapter 17: Advanced Concepts and Skills	1009
Pacing Guide	1009A
Universal Access	1009B

Common Errors and Misconceptions.....	1009D
Lesson 91: Estimating Values from Graphs.....	1010
Lesson 92: Working with Systems of Equations.....	1027
Lesson 93: Working with Inequalities.....	1043
Lesson 94: Products of Units.....	1059
Lesson 95: Multi-digit Divisors.....	1070
Lesson 96: Repeating Decimals.....	1080
Chapter Summary and Review.....	1089
Chapter 18: Multi-step Problem Solving.....	1091
Pacing Guide.....	1091A
Universal Access.....	1091B
Common Errors and Misconceptions.....	1091C
Lesson 97: Two-Step Equations.....	1092
Lesson 98: From Words to Equations.....	1098
Lesson 99: Simplifying Before Solving.....	1106
Lesson 100: Reciprocals.....	1115
Lesson 101: Simplifying Exponential Expressions.....	1123
Chapter Summary and Review.....	1133
Volume Review.....	1134
Solutions to Chapter Review (Concepts and Skills Check).....	1135
Proofs.....	1138
Solutions to Chapter Review Problems.....	1139.001
Example Solutions to Math Journal Questions.....	1139.088
Glossary.....	1139.100
Index.....	1139.115
