

UCI iCAMP Summer Research Application

Name: _____

E-mail Address: _____

Current Major: _____ Current Overall GPA: _____

Which iCAMP course(s) topic did you take? (*Circle one*)

Image Processing Signal Processing Game Simulation Collaborative Filtering

Are you a US citizen? (*Circle one*) YES NO

The iCAMP Summer research program will run from 6/24/12 to 8/18/12 this summer. During this time, students will be expected to work approximately 25 hours per week on research. Students may take up to one summer session class each summer session period. However, all iCAMP students must be available Tuesdays and Thursdays 1:00-4:00 for group meetings and training activities.

Do you have any conflicts with the summer schedule as described above? If yes, please explain.

Would you like to live on campus in the free iCAMP dorm housing? YES NO NOT SURE

Why are you interested in summer computational applied mathematics research?

How does this research opportunity fit in with your future career goals (if known)?

Please submit form to Dr. Sarah Eichhorn in Rowland 440J. (Slide under the door if not there.)

**Applicants will be notified of the results of their application by April 20th, 2012.*
