INFORMATION

Applications for the Math and Finance concentrations will be accepted once a quarter (around the third or fourth week of classes). When the date approaches, the Math Department Undergraduate Program Coordinator will send an email to the students with instructions on how to sign-up for an interview with the faculty advisor for the Mathematical Finance concentration.

Faculty Advisor: Professor Jeff Ludwig
Office: RH 540H
Email: jtludwig@uci.edu

Only students who meet all the requirements listed below are eligible for an interview to declare the concentration:

- Having passed Econ 20A and Econ 20B
- Being no more than 2 years to graduation (as of the end of the spring quarter)
- Having completed at least two years of math at UCI or, if they are transfer students, having passed at least two upper division math courses at UCI.

Students interested in the concentration in Mathematical Finance are welcome to contact the academic counselors in the School of Physical Sciences Student Affairs by email at <pssazot@uci.edu> at any time to inquire about degree requirements, so they can start taking the appropriate courses for the concentration even before they are ready to declare it.
Be aware that some of the math and economics courses required for this concentration must be taken before your junior year.
