A. Please comment on the following areas and be as specific as possible:

1. What are the instructor's teaching strengths?

    - Clear and specific, patient and helpful
    - Dr. Pantano is able to engage with the class, and makes the class fun.
    - Enthusiasm! she comes to class everyday with energy and keeps me involved and into the lecture. also the way she writes on the board with different colors and recalls back different examples as we go forward is very helpful
    - Professor Pantano interacts with her students, ensuring that students understand the material. She does an incredible job of helping students follow along with her lecture, regardless of the difficulty of the material. The first few weeks of the quarter the session had no TA, so Professor Pantano went out of her way to show up to teach those sessions as well. She is also incredibly good at keeping students engaged in class material and in the subject in general.
    - She is very interactive with her students.
    - The instructor genuinely cares for the learning experience of her class. Although not equipped with the skills and research of education people, she tries with all her might and knowledge to help students understand the concepts in class. Pantano is easily one of the top three professors I have had at UCI. Not only does she care about students' experiences, but her hard work ethic is evident in all that she does. I'm truly thankful that I have had a professor like Pantano.

2. How can this instructor improve as a teacher?

    - Everything is good
    - in no ways, she is perfect
    - I would have liked a little more feedback on the homework and quizes.
    - None
    - The only area of even minor concern for me was in is the organization of homework assignments. The students were sometimes notified quite late about what the homework assignment for that week was.
    - 2 blank answer(s).

3. Any other comments about this course?

    - had a lot of fun, made me more passionate maths
