A. Please comment on the following areas and be as specific as possible:

1. What are the instructor’s teaching strengths?
   - All of it.
   - Amazing depth of knowledge in the subject. Easiness of explanations. Great attitude.
   - explain the concept very clearly
   - He cares a lot about his student’s performance and puts in effort visible to the class.
   - He cleared up everything the TA went over briefly in class. He made sure the class knew what was going on. Very accessible and down to earth. Made this class manageable
   - He is able to explain (what I feel are) difficult concepts in a a simplistic manner such that it is understandable/straightforward by non-math major students, such as myself.
   - He is a genius.
   - He is an excellent instructor who gives us many example questions to practice. He is awesome on math and he teaches well. The questions are easy to understand after listening his explanation. I really love his teaching of math.
   - He knows how to clearly explain concepts and how to do problems
   - He made things as simple and straightforward as possible.
   - He makes the materials understandable and easy to understand.
   - He teaches students in an easy and understandable way. He is always willing to help students and he explains subject in detail.
   - knew exactly what he was talking about all the time very responsive always approachable got straight to the point of any question very clear when explaining material
   - knowledge of math
   - Matt does a great job of explaining concepts in an easier way to understand. He presents the material in a different way and shows simple ways to solve complex equations.
   - Matt is easily the best TA I’ve had at UCI. His explanation of concepts is very clear in a step-by-step kind of teaching instead of a conceptual kind. Also, his handwriting is easy to read. Very intelligent guy.
   - perfect
   - The TA is very knowledgeable!
   - Very clear when explaining concepts, and gives good examples in varying degrees of difficulty.
   - Very Detailed, Prepared
   - Very helpful TA. He made everything clear and easier to understand. It is a pleasure to be in the class.
   - 11 blank answer(s).

2. How can this instructor improve as a teacher?
   - become a teacher instead of a TA!!!!
   - He is a genius, doesn’t need to improve.
   - He is a great teacher.
   - He is great. N/A
   - He is just brilliant!
He just needs to speak louder.

He was very helpful to the class in answering/discussing questions

Honestly I have no complaints

Matt Keti is the best TA I’ve experienced so far. He makes the course doable for me. He puts in so much extra time and energy into the course and makes it seem like it is not a bother for him, which makes me feel like I can approach him with questions. The only comment I would have regarding this course is to have this discussion (with this TA) additional times per week.

none

None

No need

nothing

Nothing.

Too good, can’t improve

Unfortunately he is not available on campus a lot due to his schedule, but that’s not really something he can change.

16 blank answer(s).

3. Any other comments about this course?

dragged on

Great TA. Wasn’t a fan of the course and didn’t see how it’s that applicable to Econ but he made in manageable

I wouldn’t have passed if I didn’t have him as my TA.

No

None

Nope

One of the best TA ever!!! :D

that’s really good discussion

The TA was a great help to all of us. This course would be 10 times harder without Matt’s help.

This course is helpful and the instructor is awesome.

22 blank answer(s).

B. Please choose the appropriate rating on the letter grade scale A to F:
'A' indicating an excellent and 'F' indicating a wholly inadequate performance. If you have no opinion on the question asked or if it does not apply, please select NA.

4. The course instructor shows enthusiasm for and is interested in the subject.

<table>
