

We will be doing homework online with MyMathLab. This has many advantages as you will see. MyMathLab is an interactive website where you can:

- * Do homework.
- * Get personalized study plans with exercises that match your book.
- * Get help when you need it from multimedia learning aids like videos and animations.
- * Talk to a live tutor via a toll free number.
- * Self-test to improve your math skills or take tests

What do I need to get started?

You will need the following

- A valid email address.
- A student access code (It is on a pull-tab inside the kit).
- The Course ID: **vershynin32470**

What steps do I take next? Follow the steps below. Be careful in entering your name on step 4

- 1) Go to www.coursecompass.com and click on Register.
- 2) Enter your six-word student access code (It is on a pull-tab inside the kit), school zip code (95616) and country.
- 3) Enter the Course ID: **vershynin32470**
- 4) Fill in the requested information, and then create your unique Login Name and Password. Its recommended that you use your email address as your login name.

IMPORTANT: You will be asked for your first and last names. Answer by putting your first and last names in the First Name box and putting your Student ID in the Last Name box. Enter your name EXACTLY as it appears in your UCD records, and your SID too, as this is how we will assign you grades.

- 5) Return to www.coursecompass.com and log in. At the Welcome page, click on the course you are taking (21A Fall 2006).
- 6) The first time you enter the site from your computer and anytime you use a new computer, click on the software Installation Wizard on the Announcements page or on the navigational buttons on the bottom left side of the screen. This wizard will walk you through the installation of the software you will need to use the MyMathLab resources.

Note: the software may already be installed in the university computer labs. Check with the lab administrator if you wish to use these computers.
